

New Pool Treatment Products	Chemical Free Swimming	Technology	Installation	Maintainence	Benefits	Cost
<p>Pool CuZn</p> 		<p>Patented Reticulated KDF (Kinetic Degradation Fluxion Media)</p> <p>KDF is NSF certified standard 61 & 42</p>	<p>No plumbing required, place in the skimmer basket</p>	<p>Circulate pump at least 12 hours a day. Shock after excessive bather load/Rain</p>	<p>No regular chemical use required. Balances pH Kills Algae/Mold Prevents Scale build up Reduces stains Bacteriostatic</p>	<p>89.95</p>
<p>Zodiac Nature2</p> 		<p>Copper & Silver Ions + (50% Less) chemicals including Chlorine, Pool Shock, Algaecide, Stain/Scale reducer, pH Balancers</p>	<p>Plumbing and installation required *power tools required (not included)</p>	<p>Circulate pump at least 6 hours per day. Weekly testing, Chlorine + chemical additions (50% less) Shock after excessive bather load/Rain</p>	<p>50% less chemical use required. helps balance pH helps control Algae/Mold</p>	<p>Ranges from 120.00 to 150.00</p>
<p>King Tech Pool Frog</p> 		<p>Copper & Silver Ions + Bromine & Bromine shock pH balancers</p>	<p>Plumbing and installation required *power tools required (not included)</p>	<p>Circulate pump 8 -12 hours a day per Spa Manufacturer recommendation Shock after excessive bather load/Rain</p>	<p>50% less chemical use required. helps balance pH, helps control Algae/Mold</p>	<p>Ranges from 160.00 to 200.00</p>
<p>Brilliance Non-Chlorine Chemicals</p> 		<p>Bromine Potassium Peroxymonosulfate Mineral Salts Bromine Tabs Chlorinating Granules Dipotassium Phosphate Monosodium Phosphate Sodium Hydrogen Carbonate Sodium Bisulfate....etc.</p>	<p>Install chemical additives on a weekly basis, daily testing and adjustments are required</p>	<p>Circulate pump 8-12 hours per day. Daily testing and weekly chemical additives required Shock after excessive bather load/Rain</p>	<p>An alternative to Chlorine use</p>	<p>Ranges from 160.00 to 260.00</p>
<p>Baquacil Non-Chlorine Chemicals</p> 		<p>polyhexamethylene biguanide Hydrogen peroxide Sodium bicarbonate Sodium Bisulfate Calcium Chloride</p>	<p>Install chemical additives on a weekly basis, daily testing and adjustments are required</p>	<p>Circulate pump 8-12 hours per day. Daily testing and weekly chemical additives required Shock after excessive bather load/Rain</p>	<p>An alternative to Chlorine use</p>	<p>Ranges from 200.00 to 275.00</p>

New Pool Treatment Products	Chemical Free Swimming	Technology	Installation	Maintenance	Benefits	Cost
<p>Saltwater Pool Generators</p> 		<p>Chlorine Generator, 20lbs of Table Salt Chemical additives: Pool Shock, Algaecide, Stain/Scale reducers, pH Balancers</p>	<p>Professional Installation Required. Technology training required for DIY use of the digital installation. Plus standard protocol and use of chlorine chemicals</p>	<p>Daily Chlorine additives no longer required. Weekly/monthly adjustments to chlorine generator output. Plus weekly Pool Shock, Algaecide, Stain/scale reducers, pH Balancers</p>	<p>Reduces algae and mold. Manual chlorine additives no longer required. Helps mask unpleasant chlorine odors</p>	<p>Ranges from 600.00 to 4,000.00 *cost of installation not included*</p>
<p>Ecosmarte</p> 		<p>Ozone Generator, Copper Ion residual GLB Algimycin, Hydrochloric Acid, Potassium Monopersulfate, Baking Soda, phosphate removing chemicals</p>	<p>Professional Installation Required. Technology training required for DIY use of the digital installation. Plus standard chemical conditioning</p>	<p>Weekly/monthly adjustments to chlorine generator output. Plus weekly chemical Pool Shock, Algaecide, Stain/scale reducers, pH Balancers</p>	<p>No chlorine use</p>	<p>Ranges from 2500.00 to 5,500.00</p>
